

College of Engineering, Construction and Living Sciences Bachelor of Information Technology IN710: Object-Oriented Systems Development Level 7, Credits 15

Practicals

Assessment Table

Assessment Activity	Weighting	Learning Outcomes	Assessment Grading Scheme	Completion Requirements
Theory Exam	30%	1, 2	CRA	Cumulative
Practicals	20%	2, 3	CRA	Cumulative
Design Patterns	25%	2, 3	CRA	Cumulative
MVT	25%	2, 3	CRA	Cumulative

Conditions of Assessment

This assessment will need to be completed by Tuesday, 16 June 2020.

Pass Criteria

This assessment is criterion-referenced with a cumulative pass mark of 50%.

Submission Details

You must submit your program files via **GitHub Classroom**. Here is the link to the repository you will be using for your submission – https://classroom.github.com/a/wge5o0Qt. For ease of marking, please submit the marking sheet with your name & student id number via **Microsoft Teams** under the **Assignments** tab.

Authenticity

All parts of your submitted assessment must be completely your work and any references must be cited appropriately.

Policy on Submissions, Extensions, Resubmissions & Resits

The school's process concerning **Submissions**, **Extensions**, **Resubmissions** and **Resits** complies with Otago Polytechnic policies. Students can view policies on the Otago Polytechnic website located at https://www.op.ac.nz/about-us/governance-and-management/policies.

Extensions

Please familiarise yourself with the assessment due dates. If you need an extension, please contact your lecturer before the due date. If you require more than a week's extension, a medical certificate or support letter from your manager may be needed.

Resubmissions

Students may be requested to resubmit an assessment following a rework of part/s of the original assessment. Resubmissions are completed within a short time frame (usually no more than 5 working days) and usually must be completed within the timing of the course to which the assessment relates. Resubmissions will be available to students who have made a genuine attempt at the first assessment opportunity. The maximum grade awarded for resubmission will be C-.

Learning Outcomes

At the successful completion of this course, students will be able to:

- 1. Discuss theoretical and pragmatic issues surrounding design and implementation of enterprise software systems.
- 2. Analyse a problem statement for a complex software system and design an appropriate class architecture for the problem solution.
- 3. Design and implement components of large software systems following industry standard software engineering methodologies and producing industry-quality code.

Assessment Overview - Learning Outcome 2, 3

In this practical, you will complete a series of tasks covering the lecture material.

Marking Cover Sheet

Practicals IN710 Object-Oriented System Development Level 7, Credits 15 Bachelor of Information Technology

Name:	Date:
Learner ID:	
Assessor's Name:	
Assessor's Signature:	

Criteria	Out Of	Weighting	Final Result
Functionality & Robustness	20	100	
		Final Result	/100

This assessment is worth 20% of the final mark for the Object-Oriented System Development course.
